Thank You for this post. The video clearly shows that if your doors are locked and your residence has some sort of security, in this case motion lighting, it will deter the criminals. Again thank you for the post. The Wolcott Police are investigating.

This email is not spam. Everyone please take a minute to actually log in and create an account. As of now there is nothing else really required of patrol this will basically be an investigative tool for requesting video from residents for us. With that said the Chief wants everyone to at least be able to log in for now and be set up. You can however feel free to log in and check for anything interesting when you are bored but just be aware that there is not a training portal so be careful what you click on. I would also suggest just creating a shortcut on your desktop in the event you need it in the future. Any questions feel free to stop by or reach out.
